WORSHIP

CENTERVILLE CHURCH OF CHRIST

1411 SPRING VALLEY PIKE, CENTERVILLE, OHIO

CURVED BRICK WALL ON FRONT

DESIGNED FOR EXPANSION

Metal side wall designed to expand and connect youth facility with main sanctuary in future

CASE STUDY

Youth facility with gymnasium, classrooms, warming kitchen, and locker rooms.

PROJECT SPECIFICATIONS

- 6,900 total square feet
- Local building code required entire "front" to be masonry
- Gym doubled as fellowship space
- Complete project – 9 months

UNIQUE CHALLENGES

Code requirements and building restrictions made the design and placement of this facility an exercise in design creativity. Curve from wall made an otherwise small facility interesting and functional. Building was also designed to be expanded in two directions as congregation needs. Financial, site constraints, and future expansion capability determined the size and placement of this facility on site.
