CASE STUDY

Medical facility for use by multiple physicians and various medical testing services for patients

PROJECT SPECIFICATIONS

- 12,000 total square feet
- Blue glass atrium entry way
- X-ray, mammogram and MRI rooms
- Doctors' offices
- Complete project – 8 months

UNIQUE CHALLENGES

Construction of the numerous special-use rooms for testing and x-rays required unique, state-of-the-art building materials that provided protection from exposure to radiation and other potentially harmful rays.

CLIENT SATISFACTION

"This is an extremely user-friendly building in accommodating several physicians and their patients. And we appreciated your knowledge of specific state and federal codes and the compliance requirements for a health facility. That helped make this an easy building experience."
