HEALTHCARE

VANDALIA MEDICAL CENTER 55 ELVA COURT, VANDALIA, OHIO 453771

MIX OF MATERIALS

Front of building captures Interest with multiple use of materials.

BLUE TILED ACCENT

Graces the front office complex entrance

ATTRACTIVE APPROACH

From Elva Court

CASE STUDY

Multi-use medical facility in Vandalia. This was a General Contracting project, which was won by best-value bid package. Front and rear offices were added onto existing structure.

PROJECT SPECIFICATIONS

- 6,000 total square feet addition
- Multi-material façade
- Two distinct additions, one to the front to the building and the second office complex to the rear of the building
- Completion time – 7 months

UNIQUE CHALLENGES

Blending the multiple building materials in the façade of the building created some unique challenges as each reacted differently to changing weather conditions. This building had two elements, a small addition to the front of the building and a larger office complex added onto the rear of the building.

CLIENT SATISFACTION

"We really enjoy having our offices here. This is a beautiful setting...have had no problems with our offices here."

Dr. James Fleishman, Md.
